

Peer Mentor Highlight: Eryn Wiedyk

Eryn Wiedyk is a dedicated and passionate mentor in the Supplemental Instruction (SI) program. He is currently a senior on the pre-med track, majoring in kinesiology. With a strong academic record and a deep understanding of the SI program, Eryn brings both expertise and enthusiasm to the SI sessions.

Eryn has made a significant impact on the academic success of fellow students by providing invaluable guidance, support, and encouragement. As a mentor, Eryn strives to create an inclusive and collaborative learning environment where SI Leaders feel empowered to ask questions, tackle challenges, and engage with their SI sessions in new ways. Through his role, Eryn not only helps peers improve their academic performance but also fosters confidence and self-reliance in their learning journey. Eryn's goal is to leave behind a culture of teamwork, camaraderie, and advocacy for student academic support.

In addition to his work in the SI program, Eryn is involved in volunteering, weightlifting, and exploring the outdoors. Eryn was asked to share one piece of advice for his fellow WSU students and shared, "The greatest piece of advice I could give students is to be genuine and embrace being outside of your comfort zone".

The ASC Team thanks Eryn for being a vital contributor to the success of its program!
